

QUIRANTE, JOHN AARON FLAVIEN B.

Web Developer

johnaaronflavien.quirante@gmail.com | +63 9762634752 | <https://jafqportfolio.vercel.app>

SUMMARY

Web Developer with a strong foundation in Computer Engineering and hands-on experience building, deploying, and maintaining responsive web applications. Proficient in React, JavaScript, HTML5, CSS3, and API integrations, with a track record of delivering clean UI components and cloud-hosted solutions. Combines hardware/software engineering discipline with modern web practices to build scalable, user-centric products.

WORK EXPERIENCE

Intern - Game Developer

May 2025 - Sept 2025

Wally Wombats, Las Vegas, Nevada, US

- Engineered a mobile game for children in Unity and created 3D assets using Blender, resulting in an engaging, polished user experience.
- Published and deployed the final application across the App Store and Google Play Store, successfully reaching a live mobile audience upon release.
- Managed code repositories using Git while leading playtesting and bug-fixing sprints, improving game stability and performance prior to launch.

PROJECTS

Website Development for Portfolio

May 2026 - June 2026

- Built a responsive, modern personal portfolio from scratch to showcase frontend projects and technical capabilities.
- Leveraged React Hooks and custom modular components to create efficient state management and reusable UI elements.
- Optimized web assets and deployed the application seamlessly using Vercel, ensuring fast load times and cross-device responsiveness.

Smart Soil Quality Monitoring System for Crop Compatibility

Sept 2025 - May 2026

- Designed and built an end-to-end Smart Soil Quality Monitoring System using machine learning and Flutter, delivering actionable crop compatibility recommendations directly to users in real time.
- Trained and optimized XGBoost and Random Forest pipelines on soil composition data, achieving high recommendation accuracy for optimal crop selection.
- Deployed a live model API on Render via GitHub CI/CD integrated with Cloud Firestore, enabling real-time cloud data synchronization and seamless mobile inference.

RACQ Hotel Management

Sept 2025 - Dec 2025

- Developed and designed a responsive hotel reservation web application using HTML, CSS, JavaScript, Python, and SupaBase, delivering a full-stack platform tailored for seamless user bookings.
- Implemented full CRUD functionality for user authentication, room availability tracking, and client-side validation, securing data transactions and preventing invalid booking submissions.
- Deployed and maintained the production build on Render using Git for version control, ensuring reliable continuous hosting and structured codebase updates.

Calorie Burn Predictor

Jan 2025 - May 2025

- Engineered an end-to-end machine learning prediction pipeline using XGBoost trained on health and activity metrics, enabling highly accurate real-time calorie burn estimations.
- Validated and styled model performance using cross-validation alongside a custom HTML, CSS, and JavaScript interface, ensuring high model reliability and an intuitive user experience.
- Deployed the complete application to Streamlit backed by a Python and SQLite infrastructure, delivering a scalable web solution for seamless data persistence and model inference.

KEY SKILLS

- | | | | |
|---------------|--------------|-------------------|------------------------|
| • HTML5 | • JavaScript | • Problem-Solving | • Adaptability |
| • CSS3 | • Figma | • Time Management | • Flexibility |
| • TailwindCSS | • React | • Multi-Tasking | • Willingness to learn |

EDUCATION

Bachelor of Science in Computer Engineering	Aug 2022 - June 2026
University of Perpetual Help System Laguna	
TVL - Information and Communications Technology	Jun 2020 - May 2022
Binan City Senior High School - San Antonio Campus	

SEMINAR AND EVENTS

Enrichment Seminar - Computer Vision	March 2026
University of Perpetual Help System Laguna - JONELTA Basic Ed Auditorium	
Autodesk Fusion Certification Training	June 2025
University of Perpetual Help System Laguna - JONELTA College Building, Computer Laboratory	
Engineering Research Forum	May 2025
University of Perpetual Help System Laguna - JONELTA Performing arts theatre	
Enrichment Seminar - AIoT and Prompt Engineering	April 2025
University of Perpetual Help System Laguna - JONELTA Performing arts theatre	
IoT Conference 2024	October 2024
SMX, Convention Center, Pasay, Metro Manila	
Unlock the Power of the Cloud: Introduction to AWS & Career Opportunities	May 2024
University of Perpetual Help System Laguna - AWS Learning Club Online Seminar	

ORGANIZATION

Institute of Computer Engineers of the Philippines (ICpEP) - Member	2023 - 2026
University of Perpetual Help System Laguna	
MicroSociety - Officer, Auditor	2025-2026
University of Perpetual Help System Laguna - ICpEP Affiliated
